Finish machine stitching

Full guide

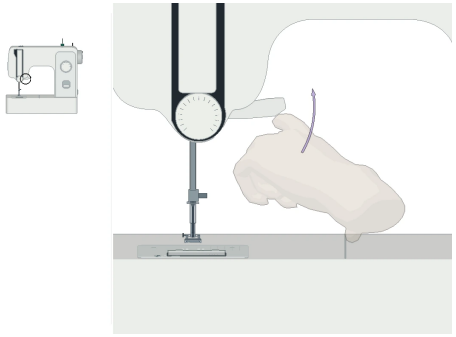

1 Raise the needle

Step help

Turn the handwheel toward you until the needle is fully raised.

2 Raise the foot

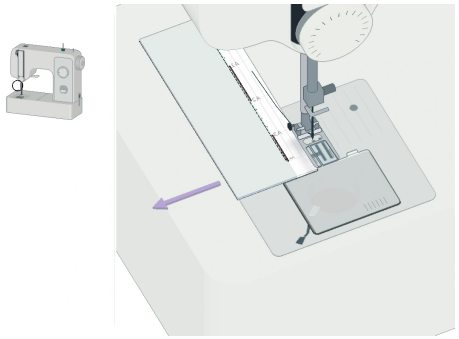

Step help

Lift the presser foot.

Finish machine stitching

3 Remove the fabric

Step help

Pull the fabric and both threads a few inches out from under the foot.

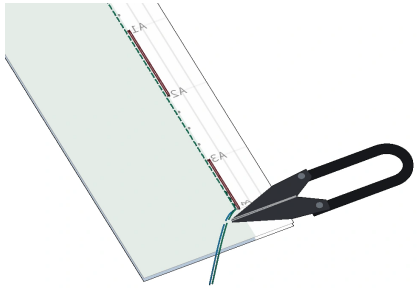

4 Cut the threads

Step help

Pull both threads into the cutter on the machine’s left side. Leave 4–6 inches on the machine.

5 Trim the tails

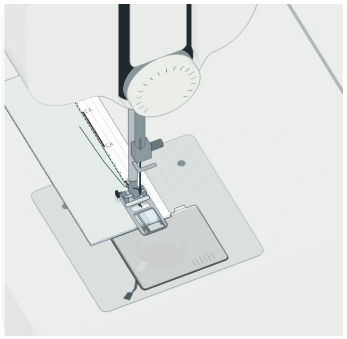

Step help

Trim the threads on your piece with the clippers.
